SPEC SHEET

Campus Cruiser

Specifications

Top is 18 gauge 304 stainless steel #4 finish. Front and back edges turned down 102° with a 90° end flanges. Top has three cutouts; two for insulated deep drawn wells and one for inset cash box with lid (not included).

A wrap around acrylic sneeze guard is secured to the top. Sneeze guard is constructed of 18 gauge #304 stainless steel with #4 finish. Top shelf is welded to frame. Two pair of stainless steel angle brackets are welded to bottom side of top shelf as to hold hanging style wire display baskets (not included). Front and sides of security sneeze guard are glazed with 1/4" thick polycarbonate material.

Body is fabricated of 1" square 18 gauge stainless steel and cold rolled tubing to form top and bottom frames. Each is then welded to 1-1/2" 18 gauge square stainless steel corner posts. Customer side and ends are hemmed with 18 gauge stainless steel channels for insertions of color laminated panels. Located on one end of cart is a horizontal, heavy duty stainless steel push handle welded in place.

Under storage constructed of 18 gauge 304 stainless steel #4 finish. Bottom shelf is radius upward to receive sides and back to form a seamless design for ease of cleaning. Under shelf will hold up to (12) 4" wire baskets or up to (24) 2" wire baskets.

Plate type 5" casters with double ball bearing swivel raceway each with wheel brakes.
